To whom it may concern,

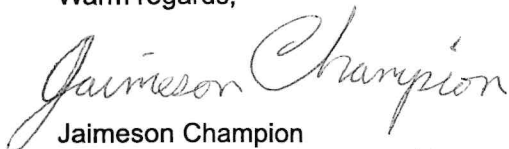

It has been an absolute pleasure working with Dance Parade, Inc. throughout this past Spring season. Thanks to Dance Parade's Ageless Action Program, our older adult community had the opportunity to participate in an enriching series of Spanish dance classes led by the talented teaching artist Yvonne Gutierrez. This partnership has quickly become one of the highlights at our center and something our members eagerly anticipate each year.

The collaboration between Dance Parade and our center was seamless, with Dance Parade handling the logistics and scheduling. Yvonne crafted a dynamic and fun learning environment, offering classes that were both accessible and slightly challenging, encouraging participants to learn new movements, work with props and traditional costumes, stay active, and explore the vibrant world of Spanish dance and music. The response from our community was overwhelmingly positive, and we are excited to welcome the program back next year.

Yvonne's expertise as an instructor is inspiring. Her ability to motivate our members and ignite their creativity through movement has fostered a deeper connection to culture, art, and personal wellness. She consistently created an atmosphere of encouragement, helping our participants embrace new ways of expressing themselves. The culminating event brought friends and family in our community together and was an empowering experience for our members who participated with a lively demonstration.

Dance Parade's ongoing support of arts programming for older adults has left a lasting impact on our center and our community. We wholeheartedly support their mission and encourage continued support for this invaluable program.

Warm regards,

Jaimeson Champion
